

Education

MPSTME, NMIMS University B. Tech in Computer Engineering CGPA: 3.05/4	2023 - 2026
MPSTME, NMIMS University Diploma in Computer Engineering CGPA: 3.14/4	2020 - 2023
Witty International School IGCSE: 78%	2020

Projects

FedEx Operations Proactivity Platform Built real-time data pipeline integrating distributed logistics data sources via RESTful APIs for cross-regional shipment tracking and predictive analytics. Developed SQL-based data transformation procedures for KPI computation, anomaly detection, and operational forecasting. Designed interactive Power BI dashboards with calculations for performance monitoring and data-driven decision-making. Implemented automated data extraction and validation workflows ensuring data quality across the pipeline.	2026
Eco-Sanjivani – Marine Conservation Platform Developed cloud-native data platform on Supabase (PostgreSQL) with database schema design, migrations, stored functions, and triggers for automated data workflows. Built ETL pipelines for real-time data ingestion via WebSocket synchronization and Edge Functions. Implemented data quality checks with input validation (Zod) and SQL-level constraints.	2025

Internships

Data Analysis & AI Automation Intern, Planning & Engineering – FedEx Express (India) Pvt Ltd Conducting analysis across logistics operations to identify data pipeline automation opportunities within Planning & Engineering. Building automated ETL workflows and analytics dashboards integrating data from distributed systems across the MEISA region. Designing data-driven solutions for process optimization, operational forecasting, and reporting.	Jan 2026 – Present
Client Relationship Executive – SERNET Financial Services Pvt Ltd Built Power BI dashboards with DAX calculations for portfolio analytics, risk metrics visualization, and regulatory reporting. Developed automated data extraction and transformation workflows using Python and SQL, reducing manual processes. Gained exposure to financial data systems, data governance practices, and compliance frameworks.	June 2023 - March 2025
Software Development Intern – Wirerr Solutions Pvt Ltd, Remote Developed data-driven application features with database query optimization and API integrations in Agile environment. Implemented RESTful APIs for real-time data flow and participated in testing and UAT using Git/GitHub.	May 2025 – July 2025

Certifications

- **AWS Cloud Architecting** – Cloud data management, S3 storage architecture, data pipeline scalability, IAM, VPC.
- **Deloitte Australia Data Analytics Job Simulation** – Applied advanced analytics, predictive modeling, and statistical techniques to business cases.
- **NISM Series VA** – Mutual Fund Distributor, Pursuing NISM VIII – Equity Derivatives.
- **Ethical Hacking** – Analytical problem-solving, anomaly detection, and risk analysis frameworks.
- **Technical Certifications** – Python, C, C++, SQL, Data Structures & Algorithms.

CORE & Technical Skills

Data Engineering & Pipelines: ETL/ELT Pipeline Development, Data Extraction & Transformation, Data Quality Assurance, Real-time Data Pipelines, Automated Workflows, Data Ingestion, Pipeline Optimization

SQL & Databases: SQL, MySQL, PostgreSQL, Stored Procedures, Joins, Window Functions, Query Optimization, Database Design, Data Modeling, Normalization, Indexing

Cloud & Data Platforms: AWS Cloud Services, S3, Cloud Data Management, BigQuery Awareness, Snowflake Awareness, Data Warehousing Concepts

Python & Data Science: Python, Pandas, NumPy, PySpark Awareness, Data Preprocessing, Statistical Analysis, Scikit-Learn, Matplotlib, Seaborn

BI & Visualization: Power BI, DAX, Interactive Dashboards, KPI Development, Excel Advanced, Automated Reporting

AI & LLM Integration: Prompt Engineering, LLM Integration, OpenAI GPT, Claude, Gemini APIs, RAG Concepts, NLP

Programming & Tools: Python, TypeScript, JavaScript, Bash, C, C++, Git/GitHub, REST API Development, Agile, CI/CD Concepts

Achievements and Positions of Responsibility

- **Head of R&D, ACM Student Chapter** – Led research in AI, data engineering, and emerging technologies.
- **Student Placement Committee** – Coordinated with tech recruiters. Represented NMIMS for NAAC A++ Accreditation.
